

WELCOME TO BALTIMORE COUNTY
DAVID IANNUCCI
EXECUTIVE DIRECTOR
BALTIMORE COUNTY DEPARTMENT OF ECONOMIC DEVELOPMENT

David Iannucci, Director of the Baltimore County Department of Economic Development, welcomed MEDA members to Baltimore County. He said what we do is create jobs, changing our communities for the better.

Baltimore County is the #1 jobs center for the Baltimore Metro area, and the #2 jobs center for the state of Maryland. The business community cares about regions, not specific jurisdictions. As a result, regional partnerships are important. Regional cooperation has never been stronger than it is today. He congratulated MEDA members for being part of the economic development community.

Today, Maryland Route 43 will open in eastern Baltimore County, opening about 1,000 previously inaccessible acres of land to business development. This is the most important infrastructure development in years in Baltimore County. The location of the new road, near I-95 and Martin State Airport, will be perfect to accommodate Base Realignment and Closing (BRAC) related growth.
